Configure deployment settings

Please choose the target *
Cloud Foundry

Destination name *
ES5_Gateway - https://sapes5.sapdevcenter.com

Add application to managed application router?
☒ Yes ☐ No

Se realiza build de la app con el comando `npm run build:mta`

```

PROBLEMS  OUTPUT  DEBUG CONSOLE  TERMINAL  SQL CONSOLE

user: fiorielements $ npm run build:mta

```

Para el despliegue se ejecuta el comando `npm run deploy`

```

PROBLEMS  OUTPUT  DEBUG CONSOLE  TERMINAL  SQL CONSOLE

user: fiorielements $ npm run deploy

```

Para obtener la url de la aplicación ejecutar el siguiente comando

```

user: fiorielements $ npm run deploy
Creating service key "fiorielements-destination-content-fiorielements-destination-service-credentials" for service instance "fiorielements-destination-service"
Creating service key "fiorielements-repo-host-key" for service instance "fiorielements-html5-service"...
Creating service key "fiorielements-uaa-key" for service instance "fiorielements-xsuaa-service"...

Una vez desplegada la app debemos suscribir el servicio de workzone a través del Service Marketplace:

The screenshot displays the SAP BTP Cockpit interface. On the left, a navigation menu includes sections like Overview, Services, Cloud Foundry, HTML5 Applications, Connectivity, Security, Entitlements, Usage Analytics, and Legal Information. The 'Services' section is expanded, and 'Service Marketplace' is highlighted. The main area shows the 'Subaccount: trial - Service Marketplace' with a search bar containing 'work'. A card for 'SAP Build Work Zone, standard edition' is highlighted with a green box. The right pane shows the details for this service, including a 'Create' button (also highlighted with a green box), 'Go to Application' link, and tabs for Overview, Service Plans, Application Plans, and Additional Links. The 'Service Plans' section contains a table with one plan, and the 'Application Plans' section contains a table with one plan.

Subaccount: trial - Service Marketplace
