

Creación App Fiori Elements

Ubicado dentro del repositorio clonado del github:

The screenshot shows the 'New Project From Template' dialog box. At the top, there is a radio button labeled 'Select Template and Target Location'. Below this, there are two main sections: one for 'development lifecycle.' and another for 'More Information'. The 'development lifecycle.' section contains two icons: one for a database and gear, and another for a stack of documents. A green arrow points from the 'development lifecycle.' section towards the 'SAP Fiori generator' section. The 'SAP Fiori generator' section is highlighted with a green border. It contains the text 'Create an SAPUI5 application using SAP Fiori elements or a freestyle approach' and a small icon of a gear and arrows. There is also a 'More Information' link below the text.

The screenshot shows the SAP Fiori Elements Source Control interface. On the left, there's a vertical toolbar with various icons: a gear, a list, a file, a magnifying glass, a key, a refresh, a grid, a circular arrow, a speaker, a list with a plus, and a trash can. The main area has a header "SOURCE CONTROL" with a "..." button. Below it, a section titled "SOURCE CONTROL" contains a message input field ("Message (Ctrl+Enter to commit on \"sol/F...")"), a "Commit" button with a checkmark, and a dropdown menu. A "Changes" section lists 23 items, each with a file icon, name, and status (U for untracked). The items include: launch.json .vscode, .gitignore fiorielements, mta.yaml fiorielements, package-lock.json fiorielements, package.json fiorielements, README.md fiorielements, ui5-deploy.yaml fiorielements, ui5-local.yaml fiorielements, ui5-mock.yaml fiorielements, ui5.yaml fiorielements, xs-app.json fiorielements, xs-security.json fiorielements, and Component.js fiorielements/webapp. At the bottom of the changes list is a "first commit Jhon..." entry with a "sol/Fiori_Elements" link and a cloud icon. To the right, there's an "Application Info – fiorieeler" panel with an "Add" button and a "QUICK ACCESS" panel with several icons.
